K R Nagar, Mysore, India-571602

CAREER OBJECTIVE

“Computer Science & Design student with hands-on experience in Python, web development, and machine learning through internships and academic projects. Skilled in HTML, CSS, JavaScript, Django, and UI/UX fundamentals. Seeking an entry-level opportunity to apply technical and problem-solving skills in software or web development roles.”

SKILLS

- **Programming & Databases:** Python, JavaScript, SQL.
- **Web Technologies:** HTML5, CSS3, Django, Bootstrap
- **Tools & Platforms:** Git, GitHub, Figma, Power BI, Jupyter Notebook, Canva
- **Specialized Training:** UI/UX Design, Machine Learning, Data Analysis, Deep Learning Basics

EDUCATION

- **Bachelor of Engineering (B.E) in CS & Design | ATME College of Engineering, Mysore**
Dec 2023 – May 2026 | CGPA: 8.21
- **Diploma in Computer Science | Government Polytechnic, Mirle**
Sep 2019 – Apr 2022 | 72.4%
- **SSLC | Kitturu Rani Chennamma Residential School, Hebsuru**
Completed 2016 | 71%

PROJECTS

AI-Based Drug Discovery (DTI Prediction) (2025–2026)

- Developed ML and DL models to predict drug–target interactions using CNN and RNN.
- Pre-processed molecular and protein data and compared classical ML with deep learning for accuracy.

Hospital Management System (2026)

- Developed a basic Hospital Management System using **Django Framework, Python, HTML, and CSS**.
- Implemented patient registration and patient detail management functionalities with database integration.
- Designed responsive web pages and handled backend data processing using Django.

Identify-Based Data Integrity Auditing for Reliable Cloud Storage System (Jan 2022 – Apr 2022)

- Developed a secure cloud storage system in Python with encryption and integrity auditing to ensure reliable data storage.

Social Media Spam Detection (Oct 2024 – Dec 2024)

- Implemented a machine learning model to detect spam content on social media using clickbait and text classification techniques.

Online Retail Recommendation System (Apr 2025 – Jun 2025)

- Implemented a user-based recommendation system in Python to suggest retail products and improve personalized shopping

CERTIFICATES & INTERNSHIPS

- **Python Full Stack Intern | QSpiders (Test Yantra Software Solutions)**
Jan 2026 – May 2026
Completed internship training in Python Full Stack Development under industry guidance. Worked on Python, SQL, HTML, CSS, JavaScript, and Django fundamentals with hands-on project exposure.
- **Data Science Intern | Placemantra**
Apr 2025 – Jun 2025: Developed recommendation systems and performed data analysis.
- **Python & Machine Learning Intern | Infotise IT Solution**
Apr 2022: Completed a one-month intensive on core Python and ML concepts.
- **Advanced Technologies Workshop | Techshiksha**
Jul 2024: Hands-on training in Microsoft Azure AI, AR/VR, and Power BI.
- **Web Development (30 Projects in 30 Days) | Udemy**
Nov 2025: Built 30 projects to master JavaScript, HTML5, and CSS3.
- **Deep Learning & Generative AI | Udemy**
Oct – Nov 2025: Certified in Deep Learning models and Generative AI principles.
